URBAN FUTURES – INNOVATIONS, STRATEGIES AND PROCESSES FOR THE CITY OF THE FUTURE

Science Year 2015
City of the Future

Technology meets innovation and entrepreneurship as representatives from communities, politics, industry and research come together to discuss the guidelines for urban transformation at Fraunhofer's "Future Cities" convention – Urban Futures: innovations, strategies and processes for the city of the future. To round off the Science Year 2015 – City of the Future, leading experts will present their visions, solutions and recommendations for action with reference to specific projects.

Venue

Westhafen Event and Convention Center
Westhafenstrasse 1 | 13353 Berlin

Further information

Information about registration, participation fees, the venue and accommodation will be available on the following website:
www.urban-futures.de
Here you can learn more about the "call for ideas" as well as the program itinerary.
